AI Recommendations

01

What's Missing

The website has reasonable digital presence but there are clear opportunities for improvement across multiple dimensions.

02

Why Improvement is Urgent

Regular improvements to design, performance, and SEO are necessary to stay competitive in today's digital-first landscape.

03

How Conversions Will Improve

- Improve page load speed to reduce bounce rates significantly
- Add clear calls-to-action above the fold on every page
- Optimise mobile experience for on-the-go conversions
- Implement live chat or chatbot for instant customer engagement
- Add social proof elements like testimonials and case studies

04

Why a Redesign is Needed

The website quality score indicates significant room for improvement in design, usability, and UX. A modern redesign would enhance aesthetics, load times, and conversion rates simultaneously.

05

Why SEO is Essential

SEO is essential for any business wanting to be found online. Even foundational SEO improvements lead to measurable increases in organic visibility and qualified leads.
