What's Missing

This business is missing a standalone website, which is critical for establishing credibility, controlling brand perception, and capturing organic traffic. Without a website, they are entirely dependent on third-party platforms and algorithms.

Why Improvement Needed

Businesses without a standalone website are perceived as less credible and miss up to 70% of potential customers who search online. A professional website builds trust, showcases services, and provides a central hub for all digital marketing efforts.

How Conversions Can Improve

- A dedicated website with clear CTAs can increase conversion rates by 3-5x vs social media alone
- Capture leads directly without relying on platform algorithms
- Build email lists and retargeting audiences
- Implement live chat or chatbot for instant customer engagement
- Add social proof elements like testimonials and case studies
