Why Improvement is Urgent

Regular improvements to design, performance, and SEO are necessary to stay competitive in today's digital-first landscape.

How Conversions Will Improve

- Improve page load speed to reduce bounce rates significantly
- Add clear calls-to-action above the fold on every page
- Optimise mobile experience for on-the-go conversions
- Implement live chat or chatbot for instant customer engagement
- Add social proof elements like testimonials and case studies

Why a Redesign is Needed

While functional, refining the user experience and aligning with modern design standards will improve competitive positioning.

SEO is essential for any business wanting to be found online.
Even foundational SEO improvements lead to measurable
increases in organic visibility and qualified leads.
