AI Recommendations

What's Missing

The website has reasonable digital presence but there are clear opportunities for improvement across multiple dimensions.

Why Improvement is Urgent

Regular improvements to design, performance, and SEO are necessary to stay competitive in today's digital-first landscape.

How Conversions Will Improve

Why a Redesign is Needed

- Improve page load speed to reduce bounce rates significantly
- Add clear calls-to-action above the fold on every page
- Optimise mobile experience for on-the-go conversions
- Implement live chat or chatbot for instant customer engagement
- Add social proof elements like testimonials and case studies

The website quality score indicates significant room for improvement in design, usability, and UX. A modern redesign would enhance aesthetics, load times, and conversion rates simultaneously.

Why SEO is Essential

Strong SEO opportunity identified. Proper optimisation can drive consistent organic traffic, reduce acquisition costs, and build long-term digital assets with compounding returns.
